New Erismann collection “PRIME TIME VOL. 2”

Wide range of young and contemporary trends

The wallpapers in the Prime Time Vol. 2 collection are young-looking, decorative and complement modern interior design trends perfectly. Whether plant-inspired motifs, bold graphics or authentic wood and stone imitations, these designs give rooms a truly unique feel.

The bold blossoms, which are evocative of pansies, bring a breath of fresh spring air and sense of romance to rooms. In stark contrast to this, the striking graphic motifs create an extremely stylish ambience. Weathered wooden beams, an old wooden shelf with cacti and the statement "London" motif guarantee a truly contemporary look.

As an additional extra, the collection includes a wide range of modern colours in four different plain structured designs from sunshine yellow, raspberry red, aqua and mint shades through to airy greige tones.

Available until: 2019 | Material: hot embossed and blows vinyl non-woven, Paper duplex | Contents: 41 wallpapers
