

## **PRESS RELEASE**

### **New Erismann collection "ACQUABELLA"**

#### **Wallpapers for an unbeatable summer look**

When summer arrives we are drawn to the great outdoors to enjoy the colours of nature and the warm rays of the sun. This is hardly surprising since living spaces are often dominated by dull shades or simple white tones. So what is more fitting than to bring the summer into your home with stylish non-woven wallpapers which are guaranteed to add a touch of sunshine all year round.

With the designs from the new Acquabella non-woven wallpaper collection this couldn't be easier. The patterns seem to hug the wall almost weightlessly. The blurred structures in pastel shades appear to flow into one another to give the walls an all but spherical look.

The nonchalant designs stand out thanks to their elaborate details and expressive colour gradients. Whether filigree blossoms or exotic foliage, the floral motifs are evocative of a watercolour painting - playful yet elegant. The tile-shaped wood motif combines vitality and style and offers an impressive interplay of colours. A vibrant graphic design with a contemporary ethno look forms a stark contrast and gives walls an extravagant air.

The pastel tones create sensual colour gradients ranging from subtle creams and maritime and aqua shades through to romantic silver pink. Two elegant, plain structures with a stunning look and feel make a stylish addition to the many-faceted designs and complete the collection.

**Available until: 2020 | Material: Non-woven wallpapers – Hot-embossed | Contents: 42 wallpapers**
