### **PARADISIO - Welcome to the boho jungle**

*Bohemian Jungle* is currently one of the biggest trends in home living, blending Bohemian Chic with Urban Jungle for an unusual look – brilliant colours, natural, with imperfections. Furniture, fabrics and cushions sport tropical jungle patterns. This style is complemented by materials such as rattan, basketwork, clay or linen. Decorative elements such as dream catchers, macramé wall hangings or light wood also go well with this look. And, of course, plenty of green plants add the final touch to the true Bohemian Jungle spirit.

Now, even the walls can be extravagant, exotic or naturally harmonious, as the Paradisio 2 collection presents a wide range of matching nature-themed patterns. Tiny hummingbirds, exotic toucans, shimmering feathers or tropical plants bring the jungle into your home, with fresh shades of light green, sky blue or fiery red underlining the bold look.

Meanwhile, delicate grasses with an elegant hint of shine, or cork and bamboo effects, create a particularly harmonious ambience. Warm hues such as sandalwood, mother of pearl, or combinations with creamy nuances of blue or rose, create oases of well-being. These designs are the perfect choice if you like a trendy, exclusive look.
